

Presents:

ACDelco Comeback Prevention Seminar

Wednesday May 19, 2010

6:00pm light dinner served

6:15pm seminar begins

This seminar will focus on key service items related to various vehicle systems to prevent early failures of components. The seminar will provide proper service techniques to improve the technician's skills when replacing various on-vehicle components. The seminar will also cover some of the latest bulletins, service tips and diagnostics when servicing any of the following systems:

- **power steering pumps, generators and starters, fuel pumps, water pumps and heater cores, A/C compressors and EGR valves.**

Instructor – Rick Burgard, ACDelco

Smith Auto Training Center
2545 North Blackstone Ave
Fresno, CA 93703

Class size is limited. RSVP required, please call your Smith Auto sales person to reserve your space.

Cost - \$25.00 per person

Light dinner will be provided.
