Dan Marinucci 's

HONDA DRIVEABILITY DIAGNOSIS SEMINAR

This two-night class gives you tech tips you can take to the bank!

LEARN HOW TO ...

- Solve intermittent no-start conditions
- Maximize OBD-II diagnostics
- Identify intermittent ignition failures
- Pinpoint pesky EGR trouble spots
- Simplify MAP and A/F sensor diagnosis
- Tame common VTEC trouble

Dan Marinucci is an ASE-certified technician and technical writer who has reported on the automotive repair industry since 1976. Since 1989 he has written the "Foreign Service" column for **MOTOR** Magazine and the "Automotive Service" opinion column for **TIRE BUSINESS**. Specializing in Japanese driveability and generic electrical testing, Dan developed and has presented seminars on these topics since 1993.

*Learn those **MUST-KNOW** tips for diagnosing these popular but pesky Hondas!*
